Innovative Teaching with ChatGPT

Generative AI for Kids, Parents, and Teachers

Prompt Engineering for ChatGPT

Jul 21, 2025

**Kamila Bekshentayeva**

has successfully completed the online, non-credit Specialization

# Generative AI and ChatGPT for K-12 Educators

Educators who complete this specialization have developed a robust understanding of generative AI and its applications in K-12 education. They have gained hands-on experience using AI to enhance lesson planning, foster student creativity, and design interactive learning experiences. Graduates of this program are equipped with the skills to teach students how to think critically with AI, integrate AI-driven problem-solving into any subject, and create innovative classroom activities that personalize learning. By completing real-world projects, they have demonstrated their ability to use AI as a teaching tool, guide students in ethical and effective AI usage, and prepare the next generation for an AI-driven future.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
